

PLANIT Hires Bob Maiorano as Operations Manager of Texas Programs

Local technology veteran joins PLANIT's office to grow IT consulting services

Austin, Texas, -- PLANIT Technology Group, an information technology consulting services company for the commercial business sectors, announced that it has hired Bob Maiorano, a 30+ year veteran of technology consulting services, as the Operations Manager in Austin, Texas. In this role, Maiorano is responsible for developing PLANIT's IT consulting services business in Texas and the surrounding area.

Prior to joining PLANIT, Maiorano held a number of senior executive positions focused on providing IT outsourcing and managed services. Bob led a team to research and developed a competitive solution for providing remote monitoring of the server, network & storage infrastructure, databases, bandwidth and key applications integrated into a leveraged, affordable help desk.

"We are pleased to welcome Bob to expand our IT consulting services practice in the great state of Texas," said Rusty Breeden, Managing Director for PLANIT's Richmond, VA office. "PLANIT's Texas operations have grown over the last four years and I'm confident that with Bob's strong IT services background, we are well-positioned to continue building our presence to better serve our customers in the region."

PLANIT Technology Group, an IT consulting Services Company, specializes in delivering customized, creative IT solutions for customers in the commercial business sectors.

PLANIT is a privately held woman-minority-owned firm, with a staff of over 300 professional employees. PLANIT is headquartered in VA Beach, VA, with regional branch offices in Richmond, VA, Gaithersburg, MD, Texas and NC. For additional information, visit: www.planittech.com
