## **Dataline Consulting Services Becomes PLANIT Technology Group**

**NORFOLK, Va., February 12, 2008** – Dataline Consulting Services, an IT consulting services firm that specializes in delivering customized and creative solutions to the commercial business sector, today announces it has changed its name to PLANIT Technology Group.

“When we sold the federal services side of our business in 2007, we wanted to avoid any confusion with our commercial business services,” said Denise Robinson, president of PLANIT Technology Group. “Our new name gives us the chance to do just that and re-introduce our services at the same time. One thing that hasn’t changed, however, is that we are still the same great company with the same great people.”

Dataline Holding Inc., the parent company for Dataline Consulting Services and Dataline Inc., sold Dataline Inc. to DLN Holdings LLC in May of 2007. The sale of the federal side of the business has allowed the firm to focus on the expansion of its commercial IT business, which dates to 1990.

PLANIT Technology Group has more than 350 employees in offices in Norfolk and Richmond, Va.; Charlotte, N.C.; and Gaithersburg, Md. For additional information, visit [www.planittech.com](http://www.planittech.com).
